SUMMARY

Experienced Software Engineer with 2 years of programming and application development experience. Skilled in React.js, Node.js, JavaScript, Python, and AI-integrated SaaS platforms. Proficient in designing scalable architectures, focused on delivering clean, maintainable, and high-performance code using modern tools and technologies.

TECHNICAL SKILLS

Languages: JavaScript, Python, TypeScript, C++

Technologies and Frameworks: HTML, CSS, React.js, Next.js, Redux, React Native, React hooks, Rest API, Tailwind Css, Sass, Bootstrap, Material UI, Node.js, Express.js, Sequelize

Databases: MongoDB, MySQL, Firebase, PostgreSQL

Tools: GitHub, Git, Azure, Docker, Vercel

EXPERIENCE

SPICETEL LLC | Software Engineer

Sep 2023 – Aug 2025

- Developed AI-powered solutions using Azure OpenAI to generate job descriptions, improving efficiency by 50%.
- Built intelligent candidate-matching systems leveraging Azure Cognitive Services for skills assessment and profile analysis.
- Enhanced product and order management with delivery challan, a global product code system, and advanced reporting features.
- Designed and implemented role-based access control (RBAC) for multilingual environments, ensuring secure and scalable user experiences.
- Integrated Stripe payment gateway for seamless and secure financial transactions.
- Developed bidding and transaction systems with efficient search and filtering, reducing query time by 60%.
- Designed secure authentication and authorization workflows to safeguard sensitive data.
- Technologies: React, Redux Saga, Sass, Node.js, MongoDB, Azure, OpenAI.

AFINITI | React JS Intern

May 2023 – July 2023

- Add new features to an existing web application
- Development of web applications using React and mobile applications using React Native.
- Build reusable components with React for future use.

PROJECTS

- AI-Powered Recruitment Platform (SaaS):** Automated job description generation, candidate matching, and onboarding processes.
- Vendor Management Portal (SaaS):** Streamlined order processing, implemented Azure AD SSO, and integrated Stripe payments.
- Bidding System:** Built secure, efficient bid transaction management with advanced search and filtering.

EDUCATION

Stockholm University

Master's in Computer and System Sciences

Sep 2025 – Onwards

Stockholm, Sweden

CERTIFICATIONS

Web and Mobile Application Development Course by JAWAN PAKISTAN

January 2021 - May 2021

- Verification Code: JP/WOW/WM-MB2021/5235

NOTABLE AWARDS

SPICETEL LLC

Employee of the Month

Nov 2024

Dubai, UAE
